

Critical illness insurance

You don't plan on it, but you can plan for it!

Provides a lump-sum cash payment after diagnosis of a covered critical illness such as a heart attack or cancer to help supplement your health insurance.

It's a smart, cost-effective way to help with the expenses above and beyond what your health insurance plan already covers, giving you the flexibility to spend the money on things such as medical bills, health care deductibles, groceries, loss of income, travel expenses or a dog sitter.

Here's how it works

Critical illness insurance claim example

Mary is a full-time Googler who enrolled their spouse and children in critical illness insurance during open enrollment. Several months later, Mary's husband (Jay) had a heart attack while mowing the backyard. Jay was sidelined from work for several months while they focused on recovery. Jay used their critical illness cash benefit to pay their medical bills, supplement the income they lost and pay other bills. The payment example below highlights the cash payment you would receive as a result of a heart attack.*

	Benefit
Heart attack	\$30,000
Securian Financial pays you:	\$30,000

Key benefits of critical illness insurance

- ✓ Cash payment may be used anyway you wish
- ✓ Covers you, dependent parent(s) and options to cover your spouse/ domestic partner and child(ren)
- ✓ Includes diagnoses made by a licensed provider outside of the United States

*Assumes Googler is enrolled in \$30,000 of coverage. Actual experience and benefit payouts may vary from this example.

Your critical illness insurance plan

Frequently asked questions

Q Why should I purchase critical illness insurance?

A Critical illness insurance complements your health insurance and provides additional financial protection for you and your family to use as you wish, allowing you to focus on your recovery and treatment.

Q If I am currently receiving medical treatment for a covered condition, can I still enroll in critical illness insurance?

A Yes. However, you must be first diagnosed by a licensed physician for a covered critical illness while your coverage is effective to be eligible for a benefit. If your diagnosis occurred before your coverage became effective, you would not be eligible for a benefit. For example, if you have been diagnosed with kidney failure and are currently receiving treatment for this illness, you would not be eligible for benefits for kidney failure once your coverage begins.

Q Can I take my coverage with me if I leave Google?

A If you leave Google for any reason, including retirement:

1. For the first 18 months, you can continue coverage at the same rates as active Googlers, which means your rate may be subject to change if rates are changed for active Googlers
2. After 18 months, you can elect to port your coverage and pay premiums directly to Securian Financial. Initially, rates are the same as what you pay as an active Googler, but rates are subject to change

Note: Portability is not available if you reside outside of the United States or if you are a resident of Colorado or Vermont.

Q Who is eligible to enroll for coverage?

- A**
- All active Googlers working 20 or more hours per week for at least five months in any calendar year¹
 - Your spouse/domestic partner – coverage is available only if Googler coverage is elected²
 - Your child(ren) from live birth to age 26. Coverage is available only if Googler coverage is elected²
 - You or your spouse/domestic partner's dependent parent who is a biological parent, step-parent or adoptive parent

A dependent parent must also satisfy one of the following:

1. Is claimed as a dependent on the IRS income tax forms
2. Is financially dependent on the insured for more than half of their out-of-pocket support costs, including but not limited to, food, housing, clothing and medical services

Q Do the benefit payouts have to be used a certain way?

A No. Critical illness insurance provides you a lump-sum payment to use any way you want.

Q Can I add critical illness insurance coverage anytime?

A You can elect this coverage as a new hire, during open enrollment or at the time of a qualified status change.

Frequently asked questions

Q How do I file a claim?

A Visit securian.com/benefits

1. Select "Employer" under report a new claim
2. Select "Start a new claim"
3. Answer all questions to the best of your ability and type "Google" when prompted to enter "Company Name"

Q Are benefits payable if my diagnosis is made outside the United States?

A Yes. If you are outside of the United States at the time of your diagnosis, your international licensed provider may certify your condition.

Q What is a covered critical illness?

A A covered critical illness is a specific health condition for which a benefit may be paid, upon diagnosis and submission of an approved claim.

For example, kidney failure is a covered condition and is defined as the total and permanent failure of both kidneys, which requires the insured to undergo regular renal dialysis at least weekly or for which the insured needs a kidney transplant and is included on an official USA transplant waiting list such as the United Network for Organ Sharing (UNOS). Permanent regular renal dialysis or kidney transplant must be deemed medically necessary by a specialist.

Note: Covered conditions may vary by state. Please refer to your [certificate of insurance](#) for complete critical illness definitions.

Q What's the difference between full and partial benefit cancer?

A The difference between full and partial benefit cancer is typically based on the stage and type of cancer. The partial benefit cancer is typically for earlier stages of cancer and full benefit cancer is typically for later stages of cancer. An explanation for both full and partial benefit cancer is provided in your [certificate of insurance](#).

Q Are benefits payable for a condition diagnosed prior to my coverage effective date?

A No. Benefits are not payable for an illness diagnosed prior to your coverage effective date. For example, if you were diagnosed with a stroke prior to the effective date, you would not be eligible for payment for that stroke. However, if you had a stroke after your coverage is effective, you may be eligible for benefits for the second stroke if you have active coverage. If you are diagnosed with another stroke six months or more later (from diagnosis to diagnosis), you would be eligible to receive a recurrent benefit for the third stroke.

Q What is the recurrence benefit?

A The recurrence benefit provides an additional benefit payment after a benefit separation period of six months, if an insured is once again diagnosed with a condition that was previously approved. All conditions eligible for a recurrence benefit may receive a benefit payment equal to 100 percent or 50 percent of the benefit amount that was paid upon initial diagnosis. A list of some conditions eligible for a recurrence benefit can be found in this brochure on the bottom of page 2. Initial and subsequent diagnosis must happen while covered under the plan.

Frequently asked questions

Q Can I receive multiple payouts from this plan?

A This plan provides additional payouts for a different covered condition if 30 days separate each condition.

Q Can I qualify for additional covered benefits after my initial critical illness claim was approved?

A Yes. You can file additional claims because of a prior, approved critical illness claim. Covered benefits like post-traumatic stress disorder may take longer to diagnose and are part of your plan's covered illnesses.

Q If my spouse or domestic partner is also a Googler, are we both able to file a claim on the same dependent parent?

A Although a dependent parent can be covered by you and your spouse or domestic partner if you are both insured as Googlers, the policy requirements limit benefits to one of you for the same dependent parent. Either you or your spouse/domestic partner can file a claim for the same dependent parent and for the same illness, not both of you.
