

STRENGTHEN YOUR FINANCIAL FUTURE

Why life insurance is important

Life insurance can help protect your family when they need it most and help take away the financial worry at an already difficult time – when you and your income are no longer there.

44% 

of households say they would face financial hardship in less than six months if their primary wage earner died.¹

Among Americans with financial dependents, **2 in 5 say they are barely or not at all financially secure.**¹

More than half of Americans think life insurance costs 3x or more than it does.²

The actual cost is comparable to a cup of coffee per day.³

**Enrolling is easier than you may think**

Coverage may be included without answering any health questions. And if you do need to answer questions regarding your health, there are just a few simple ones.
